

As a Service Disabled Veteran-owned small business (SDVOSB) registered as a federal contractor, we offer a range of services to meet the diverse needs of our clients, including temp staffing, IT hardware/software, certified medical coding, third party billing, and accounts receivable. Our temp staffing solutions provide clients with access to top talent across various industries, while our IT services help businesses achieve their technology goals. Our certified medical coding services ensure accurate billing, while our third party billing and accounts receivable services streamline revenue cycle management. We are committed to providing exceptional services to help our clients improve efficiency, productivity, and profitability, while maintaining a strong focus on quality, accuracy, and customer service.
